### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Ledbetter on June 17, 2005.

The application has been amended as follows:

Claims 26-30 have been cancelled.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

U.S. Patent No. 6,744,207 is not 'prior art' to the present application because the present application has a U.S. filing date before the filing date of the '207's priority document. The remaining question is as to whether an interference between the '207 patent, and the instant application is appropriate. For the reasons stated in the previously issued Reasons for Allowance, an interference is not appropriate at this time.

As noted previously, the "two-way obviousness" test is employed for instituting an interference. In other words, the claims of the present application must anticipate or render obvious the claims of the patent, and vice versa. The specification (of the patent and the instant application) is referred to only if it is necessary to interpret a particular term or phrase.

Art Unit: 1755

Moreover, “[e]xpress limitations in the claim should not be ignored nor should limitations be read therein.” MPEP 2301.01.

For the claims of the present invention to “anticipate or render obvious” the claims of the ‘207 patent, the present claims must describe an “amber” glass which is an express recitation of all of the ‘207 claims. The instant claims do not expressly describe an “amber” glass, and to arrive at an “amber glass,” one must read limitations into the present claims which is not appropriate when determining if an interference is appropriate.

Applicants inquire as to the status of claims 26-30. Claims 26-30 were cancelled in the Examiner’s Amendment with a mail date of April 12, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Sample whose telephone number is (571)272-1376. The examiner can normally be reached on Monday to Friday.
